Headline

Connecting European Industry with South Asian Markets

Subheading

Renova Trade is a Finland-based international sourcing, procurement, trading, and export company connecting trusted European manufacturers and suppliers with businesses across Bangladesh and South Asia.

We specialize in sourcing high-quality ferrous and non-ferrous metal scrap while also supplying heavy equipment, industrial machinery, engineering products, and industrial solutions. Through a reliable supplier network across Europe, we help clients identify the right products, negotiate competitive commercial terms, and coordinate international deliveries with confidence.

Core Services

- Metal Scrap Trading
- Heavy Equipment & Industrial Machinery
- International Product Sourcing
- Procurement & Supply Chain Support

2. About Us

Renova Trade provides professional sourcing, procurement, trading, and export solutions for businesses looking to source quality products from Europe.

Our primary focus is metal scrap trading, supported by international sourcing for heavy equipment, industrial machinery, engineering products, and other industrial goods. We work with trusted manufacturers and suppliers across Europe's leading industrial regions to help customers secure reliable products, competitive pricing, and dependable supply chains.

Our approach is built on transparency, professionalism, responsiveness, and long-term business relationships.

3. Metal Scrap Trading

Metal scrap trading is one of our core business divisions.
